Publishing

▸ More Details Here

Only files a page or a table actually refers to are included.

Upload a file to the shelf, do not reference it anywhere, and reopen Publish

⚠ Item Three

Look at external page

Logo

Open the link in a **private window** – that is the honest test, because your normal window is logged in.

You should see the pack with no portal chrome: a contents list, your pages, your tables, your files. Click through them. Images and PDFs open.

Open the chronology. Back in 11b you pointed an entry at the page holding its detail. The recipient's table has a **Detail** column carrying that reference:
